

TrustMatters

Conversations on Trust

Trust in the Era of AI

September 18, 2024 · 1pm-1:45pm ET

Thank you for your interest in our September 18, 2024 Conversation on Trust, “Trust in the Era of AI”. For those who were able to join, I hope you enjoyed the experience – I certainly did.

In changing the TrustMatters webinars to TrustMatters Conversations on Trust, our focus is more on the depth of the conversation than presenting slides. We’re still adjusting to the change, and I hope you like it.

Mark your calendar for our next Conversation on Trust on November 13, at 3pm ET. Odie Parkins from 4 Trees Solutions will join me to discuss establishing a foundation of trust.

For those of you who missed the conversation last week or want to review the content, here is a link to the [recording](#) and the [presentation slides](#).

Feel free to share these resources with your colleagues and friends!

As always, you can check out our [upcoming conversations and past webinars](#) on the Trusted Advisor website.

Best wishes,
